

## Cisco Meraki Endpoint Management for Retail

Meraki Systems Manager (SM), Cisco's Endpoint Management solution, allows administrators to securely manage mobile phones, tablets, laptops, and desktops. Devices, applications, and users are easily managed via the Meraki web-based dashboard to secure corporate assets and improve IT processes, while saving time and money.

### SM SOLVES RETAIL USE CASES

#### Effectively Control Devices

SM makes it easy to monitor, provision, and secure endpoints for IT while gaining visibility, diagnostics, and control.

OS supported:

iOS, macOS, Windows, Android, ChromeOS, tvOS

- Mobile phones and tablets for Point-of-Sale
- TV screens for information display
- Laptops for remote workers
- Other corporate assets

**Features:** automatic device enrollment, role-based administration management, inventory data export, device restrictions (camera use, gaming, music), Single App or Kiosk mode, automatic and whitelisted content filter, and more!

#### Seamlessly Deploy Applications

SM deploys and secures:

- public applications directly from the Apple App and Google Play stores
- private applications through cloud or local-hosting installers

- Point-of-Sale and billing apps
- Software and firmware upgrades
- Content (ads, promotions, store information etc.)
- Private apps and software

**Features:** custom deployment (files, documents, and apps), software installation, update latest file versions, device license assignment, unauthorized software and app installation monitoring and notification, and more!

#### Dynamically Enforce Security

SM ensures security by protecting devices and data with customizable security policies. These policies can be deployed to check whether devices are encrypted, locked, jailbroken, and running the latest OS versions.

- Payment data security (PCI) - data encryption
- Security compliance
- Relocation of lost/stolen devices
- Asset Tracker

**Features:** passcode requirement, revoking privileges, geofencing, device location, lost mode, black/white list apps, and more!

### ALL INCLUSIVE PRICING

With SM, one license includes all features, 24/7 support, regardless of device type. Available in 1, 3, 5, 7, 10-year options.

### INTERESTED IN TESTING?
