

E-rate milestones

To help you manage the process and stay ahead of E-rate deadlines, follow this timeline:

IT Built for K-12 School Districts and Libraries

At Cisco Meraki, we understand the importance of providing IT teams with sound, secure networking infrastructure so you can effectively support both students and teachers in classroom environments. This is why schools and libraries like yours choose Meraki cloud-based technology to deploy and manage their IT networks.

Meraki is dedicated to providing an affordable way to close the digital divide in K-12 schools and libraries. E-rate funding can be used to purchase the following hardware and licensing:

Meraki MR Access Points

Deliver superior performance in high-density classrooms with reliable Wi-Fi.

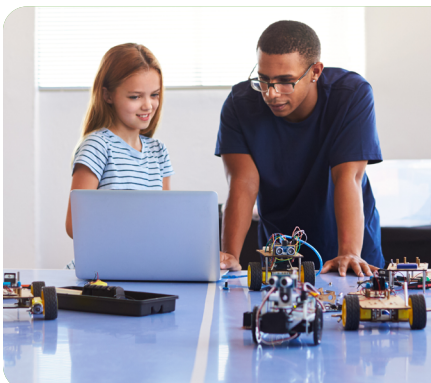

Meraki MS Switches

Reduce time spent on operations and troubleshooting with complete network visibility and control.

Meraki MX Security Appliances

Secure school and library networks and keep data protected.
