

Meraki IoT ARPA Funding Guide

Federal funding to help educational organizations deliver transformational experiences and modernize education.

Higher education

With \$40 billion in ARPA (American Rescue Plan Act) federal funding allocated through the Higher Education Emergency Relief Fund, there is no better time than now to improve your campus experience.

Schools must use their funds within one year from the date they were received.

Meraki helps transform the learning environment

Schools can leverage ARPA funding and the Meraki platform to evolve the student experience by converting every corner of the school into a smart space that enables learning and teaching. Integrating sensors, physical security, and network technology together provides complete visibility of the digital and physical world and enables safe environments for students and faculty.

MT sensors

- Monitor and improve indoor air quality
- Automate classroom ventilation and HVAC system

MV smart cameras

- Move people safely and prevent over occupancy
- Monitor space usage and automate cleaning protocols

Enable your best experiences today!

Cisco Meraki experts can help identify state and federal funding to support your project, review your current grant proposals, and deliver custom Meraki packages to meet your needs.
