

## AT A GLANCE

# Meraki MV53X

OUTDOOR

BULLET

IP67 | IK10+ RATED

For organizations that need to safeguard outdoor areas where attention to detail is crucial, the Cisco Meraki MV53X with integrated infrared delivers incredible views and serves as a vital enhancement to your physical security solution.

## A physical security solution where distance meets detail

### Capture every detail

4K high-resolution physical security camera with 3x zoom for clear visibility of people and vehicles.

### Access from anywhere

Edge-based video processing and storage allows for remote management and monitoring of your space.

### Resolve incidents faster

Minimize time spent searching for an event and arrive at resolution quickly through AI-enabled features such as attribute search or motion search.

### Enable predictable retention

Retain more critical incident footage through smart retention, which intelligently balances resolution and storage, minimizing compromises.

### Go beyond physical security

Explore the use of presence analytics to reveal space utilization or integrate APIs for access control functionality.

### Sustain security in tough conditions

Protective camera enclosure helps ensure continuous monitoring under severe or harsh weather conditions.
