Utilizing ARPA Funds for State and Local Governments

With over $350B in federal funding going to states and localities, now is the time to accelerate modernization and ensure security to enable superior citizen experience.

FUNDS MUST BE OBLIGATED BY DECEMBER 31, 2024 AND EXPENDED BY DECEMBER 31, 2026

Modernized IT powering agencies and citizen experiences

Experiences matter

By combining touchpoints with technologies we provide a unique, intuitive approach to delivering transformational experiences that result in empowered employees, safe and protected citizens, and secure physical and digital assets. Delivering on that promise, the Meraki platform offers unrivaled performance, security, and scale—allowing simplicity from anywhere.

Touchpoints	+	**Technology**	+	**Experiences**

Meraki enables state and local government experiences

Hybrid workforce

Provide the flexibility for an employee to move seamlessly between on site/off site in a consistent, simple, and secure manner. When done at scale, this leads to increased agency agility and resilience, driving greater productivity and employee engagement while still providing essential citizen services.

Hybrid workforce and telework solutions

- Z3 for secure teleworker gateway services
- SM to provision, monitor, and secure remote devices
- The Meraki platform enables faster deployment, management from anywhere, and the ability to scale reliably

Safe environments

Safe, secure outcomes are achieved with a consistent and comprehensive application of physical and network security across touchpoints. This enables agencies and localities to build a trusted workspace environment that emphasizes network cybersecurity and physical security for both employees and citizens.

Safety for network, endpoints, and web security

- MX with advanced security for cloud-managed SD-WAN
- MR APs with advanced licensing and Cisco Umbrella protection
- SM for endpoint security

Wireless APs and network cameras to support safe physical spaces

- MR and MS increase wireless coverage, allowing employees to remain distanced while working
- MV to allows real-time viewability and ensure safe physical environments

ARPA funding can help you:

- ✓ Partner with industry experts to achieve safer/ smarter employee and citizen experiences

- ✓ Recognize cybersecurity as a necessary component to continuity of service

- ✓ Strategically evaluate multiple funding streams to invest in your agency/locality

‎cisco Meraki

Enable your best experiences today!

Cisco Meraki experts can help identify state and federal funding to support your project, review your current grant proposals, and deliver custom Meraki packages to meet your needs.
