

Build a Smarter, More Sustainable Future

with **MT Sensors**

Not only are Cisco Meraki cloud-managed environmental sensors smart, secure, and sustainable—they're also easy on your budget. Check out some of the benefits realized by customers:

175%

return on investment (ROI)

Realized over three years, with a payback period of less than six months.

43%

reduction of unplanned downtime

Real-time monitoring keeps your network up and running.

27%

energy reduction

Automate your cooling infrastructure with intelligent sensor data.

“

What's great about the Meraki MT journey is that we were given budget for monitoring our data centers and server rooms and created an entirely new use case for energy savings and reducing carbon emissions. The sensors paid for themselves in around a year and will continue to produce profit moving forward.”
